

# **RAO Newsletter - #2014-2 - February 20, 2014 - Job Opportunities for Wisconsin Veterans**

The Wisconsin Department of Veterans Affairs has recently met with Mercury Marine in Fond du Lac who employs approximately 3,000 employees in Wisconsin. They have created a corporate program for “hiring veterans” and are committed in working with us and our other partners to employ veterans. In a recent meeting they stated it was their desire to hire veterans not only for the skill sets they can bring to their company, but also because veterans possess the soft skills that Mercury is looking for in their employees; (leadership, teamwork, commitment, dedication, attitude, etc).

Listed is a link to their 32 current vacancies in Fond du Lac and Brookfield. These positions include both salaried and hourly positions in manufacturing, supply, engineering and the design program areas. <https://www.brunswick.com/careers/>

If you feel you are up to the challenge and have the skills Mercury is looking for then contact Kelly Aschebrook at the Menasha Job Center. Kelly and his other veteran coworkers from the DWD Office of Veteran Services staff (DVOPs/LVERs) will work directly with you in order to prepare and assist you with setting up an interview with the Mercury Marine staff who are assigned to hire veterans.
